

Secrets, Silences and Sources: Five Chinese-Australian Family Histories

edited by Sophie Couchman

Special edition of La Trobe Asian Studies Papers

Secrets, Silences and Sources tells the stories of a range of Chinese immigrants who established families and made homes in nineteenth-century Australia. Chapters explore notions of identity, family secrets and the pain of exclusion. These personal histories are told by members of the Chinese Australian Family Historians of Victoria (CAFHOV). Contributors also share the resources they drew on to construct these stories in the hope that this will inspire others in their research.

Table of Contents
